September 29, 1975

MEMORANDUM FOR: Acting Deputy Director for Intelligence
SUBJECT : Material Provided to the House Appropriations
Committee Staff

1. Some months ago Ed and the Director authorized us to send finished intelligence items to Charles Snodgrass on the House Appropriations Committee Staff. Snodgrass, who says his function is to determine how much intelligence a buck is buying, had requested this service.

2. Each week I get a machine run listing all non-periodic finished intelligence items on a community-wide basis. I send the list to Snodgrass who circles items he wants to see and we send them down to him. His interests are catholic running the range from [redacted] to politics [redacted] but at no one time is he holding more than four or five documents.
